

CORRECT DOCUMENT DIMENSIONS

Adobe InDesign and Quark Express are our design applications of choice. We've created design templates for the vast majority of our products in these formats.

Before you start designing any job with folds, creases, cut-outs, scratch panels or perforations, CALL US. These items need to be positioned precisely and we don't want to have to reject your file if it isn't right. This includes Folding Business Cards, Mini Brochures, Cut-out Cards, Greeting Cards, Showcards with an added crease and many others.

For Large Format Posters, see additional help files.

For any other items, you can find all the dimensions you need on our 'Standard Page Sizes' help file.
